There are more hungry New Yorkers than citizens of San Francisco.

Can you imagine opening the fridge for family dinner and finding nothing there?

When you're poor, you're constantly told you're not good enough.

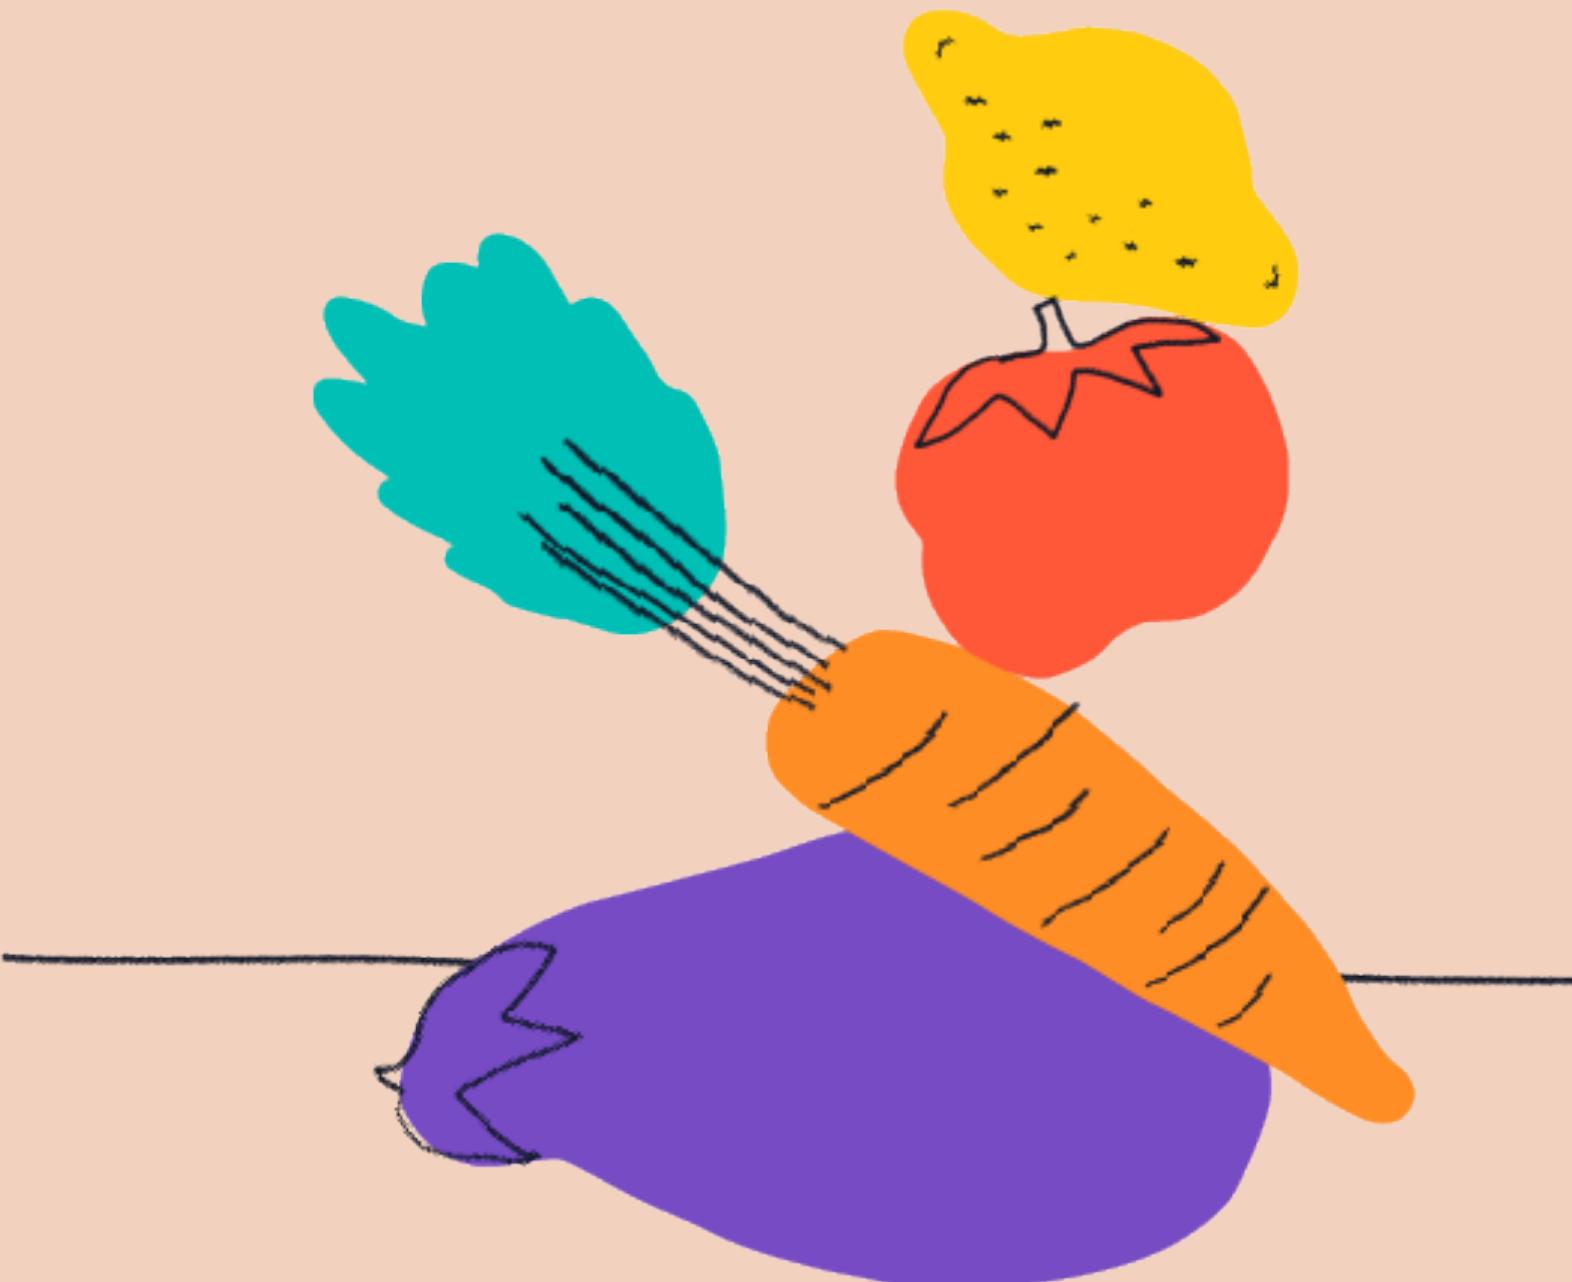

What it looks like to apply for food stamps. Imagine the DMV but even more humiliating and degrading...

Can you imagine sending your kid to school on an empty stomach?

Can you imagine waiting in a food pantry line for hours just to get food other people threw out?

Can you imagine the cloud of shame poor parents feel?

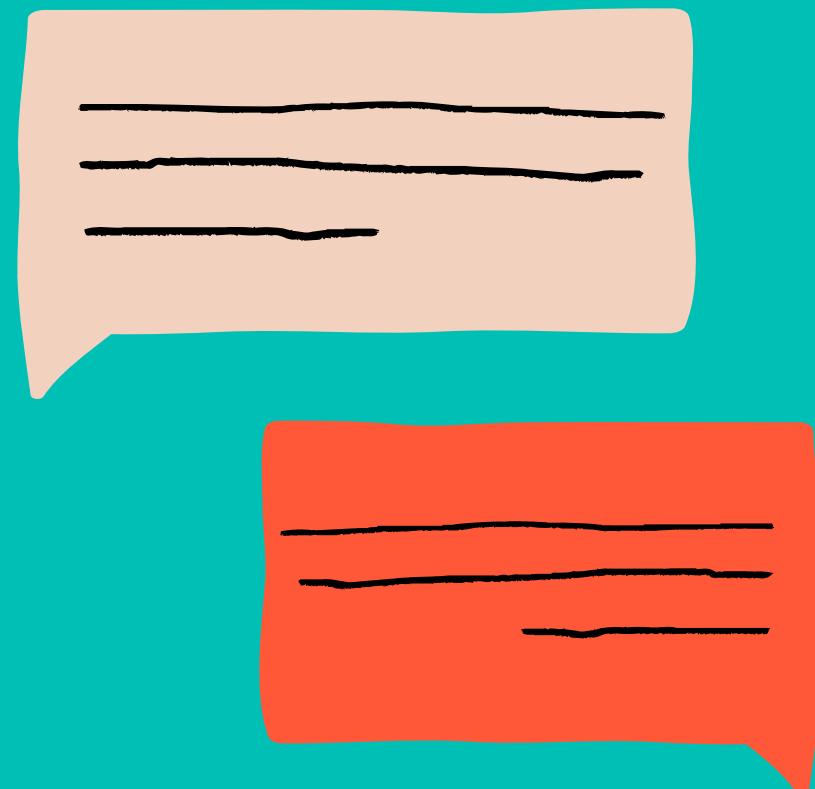

Lemontree helps low-income families cook meals they can be proud of.

Our dinners cost less than store-bought groceries, and help NYC parents stretch a tight budget.

Every week we deliver boxes filled with all of the nutritious and healthy ingredients Moms and Dads need to cook the meal their family deserves.

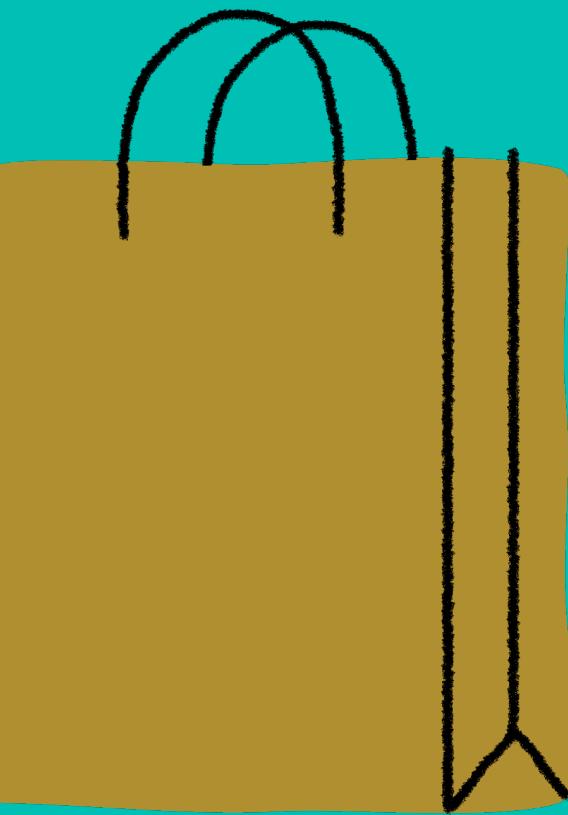

Lemontree is a sustainable non-profit that can operate donation-free at scale.

How it works:

Order

Families order food by text message...

Pickup

They pick up at one of our distribution sites...

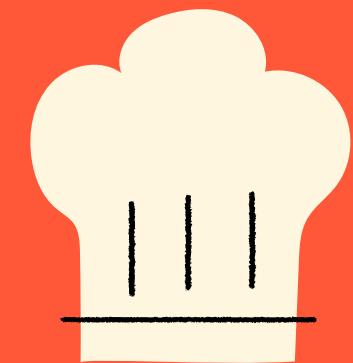

Cook

And use our recipe to make a fresh, home-cooked, meal.

LEMONTREE IS A CHOICE

Most non-profits offer hand-outs, we sell a product.

Baking choice into our product has big advantages:

Dignified

Families value themselves
and their dinner.

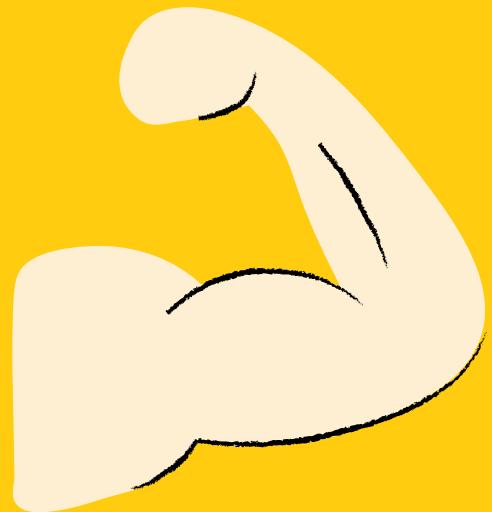

Measurable

We know it's working when
customers purchase.

Sustainable

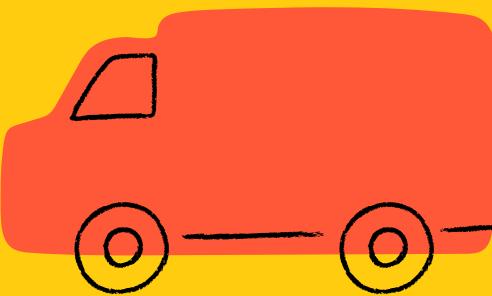

Over time, grocery revenue
funds all operations.

Our scalable solution avoids the traditional cost sinks of meal-kits and similar businesses:

Labor

Our bags are packed by volunteers.

Trucking

We work with partners to source donated trucking.

Packaging

By maintaining the cold chain end-to-end we avoid costly ice packs.

Families in our pilot are loving Lemontree...

MEALS DELIVERED TO DATE

And they're proud of what they're making:

**“I cooked an eggplant for
the first time last night.”**

-Ana Correa

**“My son ate ALL the
Butternut Squash!”**

-Marilia Lacerda

All of this was without a crucial component...

We were unable to accept EBT cards (food stamps); making 50%-100% of our demographic's grocery budget unreachable.

In late-October we received USDA certification to accept EBT. We now have the ability to truly accomplish our mission.

We're preparing today for significant growth.

A unique hybrid between startup and non-profit.

Founder and CEO Alex Godin started and sold a venture backed internet company.¹
He was ready to start another...

But, when Donald Trump won the presidency he pressed pause and organized a telethon to raise money for progressive causes².

When they raised a quarter of a million dollars in four hours he decided to dedicate himself to helping people who need our help.

Lemontree is a non-profit that blends the startup ethos with a laser focus on improving outcomes.

Every week we celebrate our customers by naming a “chef of the week”

\$1.50 Groceries

We pay for our groceries because we believe our customers deserve quality.

\$0.26 Head Count

At scale we expect to support 40 schools per employee.

\$0.08 Real Estate

Cost of cold storage and packing area.

*we are exploring opportunities to receive this as an in-kind donation.

\$0.06 Grocery Helpers

At each site, a volunteer helps unpack groceries. We compensate them with discounted meals.

\$0.02 Customer Acquisition

We reward Ambassadors for referrals with discounted meals.

For every \$2 of meals we sell at scale, we spend \$2.
